

ESNO CONGRESS 2019 - Date: 21 February 2019 - BRUSSELS

“The Specialist Nurse in European Healthcare towards 2030”

The objective of the conference is to clarify the role of Specialist Nurses and discuss their contribution and position in a rapidly changing healthcare landscape in Europe.

We are very pleased to announce the second ESNO Congress in Brussels (Belgium) on the 21st of February 2019. With the overarching theme “The Specialist Nurse in European Healthcare towards 2030” the conference will bring together health practitioners, policy maker, educators, clinical Specialist Nurses, researchers and health managers from around the world who are engaged in the design and delivery of nursing care.

Topics of the conference will include roles and competencies of Specialist Nurses, education and leadership, interprofessional teamwork, Specialist Nurses’ roles at the primary and secondary care interface and innovation, amongst others and health threats such as AMR and vaccination.

With your participation you contribute to the future position, role and profession of your position in local, regional, national and European health context.
